SEEKS TO DISSUADE THE PRESIDENT FROM TRIP

(International News Service.)
WASHINGTON, Aug. 29.—A resolu-
tion seeking to dissuade President
Wilson from making his proposed
speaking tour was introduced in the
house this afternoon by Representative
Rosenberg, of Illinois. The resolu-
tion provides that the President
should postpone his proposed tour at
least until "such a time as we may
know definitely the problems which
confront us growing out of this in-
tricate situation."

West Bill Given Favorable Report

(International News Service.)
MONTGOMERY, Aug. 29.—The bill
of Senator Charles West, of Jef-
ferson, submitting to the people of
the state a constitutional amendment
permitting the municipalities of Ala-
bama to increase their tax rate, not
to exceed two per cent per annum,
was advocated by the judiciary com-
mittee of the Senate Friday. Work-
ing committees of both houses were
extremely busy Thursday.

Court Adjourns to Monday Morning

ences it was officially stated by their
president today.

Pershing to Visit Home on Return

(International News Service.)
LACLEDE, Lynn County, Mo.,
Aug. 29.—General John J. Persh-
ing is coming home. A cable-
gram from the General to Mayor
Ballin promised a visit here short-
ly after his return to the United
States in September. Here where
General Pershing is idolized, the
whole countryside glows and tingles
with joy and anticipation. Go-
gous plans are being laid for
General Pershing's reception here.
The entire county will partici-
pate in the home-coming celebra-
tion of the greatest of America's
war generals, "Black Jack" Persh-
ing. His visit here, amid the
scenes of his early childhood, will
attract many visitors from all over
the nation. He is expected here ei-
ther the latter part of September
or early in October.

STANDS ERECTED FOR CELEBRATION HERE LABOR DAY

A large crew of carpenters, under
the direction of the Carpenters' Un-
ion, this afternoon is erecting a speak-
er's stand, refreshment booths and
seats at the grove near Riverview
Avenue, the scene of the great Labor
Day celebration by the Allied crafts
of Albany-Decatur. The carpenters,
who volunteered their services, will
be assisted by many members of the
Carpenters' union of the shops, who
also volunteered to do the work.

The final plans for the celebration
were worked out at the last meeting
of the committee on arrangements
Thursday night. Many candidates al-
ready have entered the popularity
contest and much interest is being
shown in the event.

The only change in the announced
program made by the committee last
night was in regard to the wrestling
contest. The event has been thrown
open to all and a series of elimination
matches will precede the main bout
for a cash prize. Ten wrestlers al-
ready have entered their names.

A letter was received last night
from William L. Harrison, president
of the Alabama Federation of Labor,
scheduled to deliver an address, stat-
ing he is ill but will be here if pos-
sible. He has returned to his home
in Birmingham from Montgomery.

The young ladies who have been
nominated for the Ladies' Re-
spondent Popularity Contest are as fol-
lows:

WASHINGTON, Aug. 29.—While
Pres. Wilson is on his speaking make-
tour, the Republican senators opposed
to ratification of the treaty and en-
try of the United States into the pro-
posed league of nations planned to de-
liver a series of addresses themselves
in various parts of the country. Sen-
ator Johnson, of California, will be
the chief spokesman on the stump for
the president's senatorial opponents.
He said today he planned a "speak-
ing drive straight to the Pacific
coast." Senator Borah, of Idaho, ex-
pressing his active opposition to the
league plan to speak as often
and in as many places as they can.

ALBANY BOOSTERS WARMLY RECEIVED BY THE PEOPLE OF LAWRENCE COUNTY

Ties of Friendship Firmly Ce-
mented With Moulton and
Her Neighbors.

REFRESHMENT TRUCK
GETS STUCK ON WAY

Native Sons, Now of Albany,
Speak to People of Old
Home.

Yesterday the Albany Boosters added
a few more links to the chain of
amity which binds Lawrence county
and Albany. It was the last scheduled
Booster trip of the season. The re-
ception accorded the Boosters by the
people of the neighboring county
proved that Albany is no stranger to
them, that they were regarded as
old and tried friends and business co-
operators come to pay a visit.

A baker's dozen of automobiles and
a truck laden with ice cream and cold
drinks left town shortly before 9 a.
m. on the first lap to Caddo. The
writer rode with Otto Moebs in a
dependable "Lizzie" that behaved
throughout the day as a perfect lady
should, save that she turned up her
plebeian nose and tooted aggravat-
ingly, when a more aristocratic car
got into difficulties.

The first point made was Caddo,
where a large gathering of people was
waiting the advent of the boosters and
gave them the glad hand on arrival.
It was at once evident to the Albany
Boosters that their town needed no
boosting at Caddo. This satisfactory
condition was self-evident at every
point of their itinerary, so with
thanks for past appreciation and brief
mention of Albany's endeavors to
make herself more useful to the peo-
ple of Lawrence county in the fu-
ture, the speakers stressed the ne-
cessity of better roads, a better
school system and other matters of
interest to everyone in Alabama.

Truck Gets Stalled
The good people of Caddo, were
treated to or inflicted with a greater
flow of oratory than Master of Cer-
emonies Andrew Patterson had intend-
ed, for in his opening address he an-
nounced that the ice cream truck
would soon arrive. Minutes passed—
no truck! Patterson, M. C. stood
with corrugated brow, gazing back
down the road to Albany, like Wel-
lington at Waterloo waiting for Nel-
son or Blucher; he concentrated on that
truck, but even his strong will power
could not summon it, for on a bad
stretch of road it had broken down;
which, although a disappointment to
many, may have been a blessing in
disguise, for it was a clinching argu-
ment in favor of the good roads
which the speakers advocated.

The Boosters were scheduled to ar-
rive at McCulloch's store at 10 a. m.
It was noon when they reached there,
but their friends and their families
were patiently waiting to greet them,
for they knew of old that Albany
might occasionally through act of
providence be late, but she always ar-
rives at the point which she aims for.

Moulton Next Stop
Moulton, county seat of Lawrence
county, was the next stop after a
ride over a fairly good road through
the Moulton valley, one of the most
fertile and most beautiful in the
United States. A large number of
citizens, farmers and their families
were in the court house square to
cheer for Albany as the boosters' pro-
cession drove in, and a most enjoy-
able get-together time was had. As
Dr. John T. Masterson (a Moulton
physician of 50 years practice) said:
"We welcome Albany, because she
buys the produce of our valley and
from her we obtain the supplies that
we need."

Driving thro' Landersville, where
the whole countryside was patiently
waiting and cheered as the Boosters
went thro' to Mt. Hope, the apostles
of good roads, good schools and good
will reached that village at 3 p. m.,
three hours behind schedule. How-
ever, the people were all there to bid
them welcome. That pesky refresh-

Treaty Rejection Urged by Knox

(International News Service.)
WASHINGTON, Aug. 29.—Com-
plete rejection of the treaty of Ver-
sailles was urged by Senator Knox,
of Pennsylvania, a Republican mem-
ber of the Senate foreign relations
committee and a former secretary of
state and a former attorney general,
in the Senate this afternoon.
"The more I consider this treaty,
the more I am convinced the only safe
way for us to deal with it, is to de-
cline to be a party to it at all," Sen-
ator Knox said.

PALMER DECLARES PROSECUTIONS MAY BE STARTED SOON IN NITRATE PLANT CASE

Investigating Committee Will
Not Visit the Muscle Shoals
Next Week.

DATA GATHERED BY U. S.
AGENTS TO BE REVIEWED

First Stories of the Probe Were
Published in Albany-
Decatur Daily

Attorney General Palmer, in a
statement to the House war investi-
gating committee, declared criminal
prosecutions may be undertaken by
the government in connection with the
construction of the government ni-
trate plant on the Tennessee river,
according to press dispatches from
Washington.

The story from the capital bears
out two articles published in The Al-
bany-Decatur Daily last spring when
it was learned here that a sweeping
investigation was being made quiet-
ly by government officials. The story
first printed in The Daily later
were published in several other news-
papers. Little credence was given
them by the press of the Tri-Cities,
however, but The Daily's publications
are proven by the department of jus-
tice regarding prosecutions, today's
Age Herald states, but Mr. Palmer
and his associates soon will begin a
review of the data gathered by the
government agents and will then de-
termine whether or not the evidence
will warrant criminal prosecution.
The statement of the Attorney
General has caused the investigating
committee to temporarily abandon its
plans to visit the nitrate plant next
week.

The investigation of the govern-
ment followed many reports of ex-
travagance in connection with the
erection of the plant. It was claimed
that a large number of automobiles
had been unaccounted for when the
probe opened. The government
agents, however, have maintained a
veil of secrecy over the proceedings
and all of their reports have been
made to the Attorney General's of-
fice. Mr. Palmer told the committee
he could not make all of his informa-
tion public as it might provide im-
munity for some.

Ex-Service Men May Have Fair Day

Plans for a Soldiers and Sailors
Day at the Morgan county fair in
Hartselle the latter part of Septem-
ber, under the auspices of the Ameri-
can Legion, were discussed at the
regular meeting of the Morgan county
post last night. Several new mem-
bers were received into the organiza-
tion, which is growing rapidly.

Delegates Named to Cotton Conference

A. G. Patterson, of Albany, R. H.
Walker, of Athens and A. F. Rebman,
of Courtland, have been named by
Governor Kilby as delegates from
Morgan, Limestone and Lawrence
counties respectively, to the cotton
conference to be held in New Orleans
September 8. The conference will
discuss the high cost of living, gen-
eral business conditions and will
recommend a minimum price for cot-
ton.

State Troops Await Call to Intervene

(International News Service.)
RICHMOND, Ind., Aug. 29.—State
troops in Richmond and Cambridge
were awaiting a call to intervene in
the rioting which broke out early to-
day at the Reliance foundry company's
plant here, marking a renewal of mob
demonstration by more than 2,000
persons shortly before midnight at the
plant of the Richmond Casting com-
pany.

Two Big Scoops Scored by Daily

The Albany-Decatur Daily, with
pardonable pride, calls attention to
the fact that twice within the past
six months it has secured the en-
tire nation in stories in which at
least all of the South is vitally in-
terested, namely: The change of
heart of Congressman Nicholas
Longworth, of Ohio, toward the
Muscle Shoals project and the
probe of the nitrate plant construc-
tion by government officials.

Both of these stories were pub-
lished months ago by The Daily
before any other newspaper had
them. Both have been borne out
by later developments.

LAWRENCEBURG TO OPEN SERIES WITH LOCALS SATURDAY

With four new players in the line-
up, Albany-Decatur returns here Sat-
urday to meet Lawrenceburg in a sin-
gle game, a double-header Monday and
a single game Tuesday.

The locals were defeated at Lynn-
ville yesterday in an exhibition con-
test with Lawrenceburg by a score of
12 to 4. N. Baker, hard-hitting short-
stop of the locals, clouted one for the
circuit with three men on the paths,
accounting for the locals runs and
driving Ray Baker, crack right-
hander of the Tennessee outfit, to the
showers in the first inning. Romine,
a recruit pitcher signed by Manager
Hames, was hit hard and the four run
lead was not sufficient.

The probable line up of the locals
here Saturday was announced today
as follows:

Halbrooks, 2b.
Frohoff, rf.
N. Baker, ss.
Collins, 1b.
Henderson, 3b.
Watson, lf.
E. Baker, cf.
Barnes, or.
Steadman, c.
Graham, or.
Lewis, p.

The four new faces in the line-up
are: Collins, former Vanderbilt uni-
versity star and later a member of
several major league clubs; Hender-
son, a third sacker from Kentucky;
Watson, an outfielder who played
here with the Huntsville team. Crow,
a southpaw twirler, also has been
signed.

Thornton Gives Up to Sheriff May

Oliver Thornton, alleged to have
shot Earl Turner in the shoulder dur-
ing an affray in the lobby of the Y.
M. C. A. Wednesday morning, walked
to the Morgan county jail last night
and surrendered to Sheriff J. V. May.
Thornton is suffering from injur-
ies he declares were sustained during
an altercation in the Louisville and
Nashville shops with Turner before
the shooting.

FEDERATION CHIEF MEETS EXECUTIVE TO SEEK SOLUTION OF THE SITUATION

Reports From Pacific Coast Indi-
cate the Strike There Has
Collapsed

ULTIMATUM IS SENT BY
R. R. ADMINISTRATION

Union Officials Today Seem In-
clined to Wait for Devel-
opments.

(International News Service.)
WASHINGTON, Aug. 29.—One of
the most important conferences since
the labor situation became acute will
take place this afternoon. President
Wilson and Samuel Gompers, presi-
dent of the American Federation of
Labor, were to discuss the general
labor situation.

The exact time has not been fixed.
The conference was arranged before
Mr. Gompers left France for the
United States. His early return was
due in part, it was admitted today,
to the desire of the President that he
take personal charge of the complex
labor situation. In the past there
has been a complete understanding
between the President and the Chief
of the Federation and it is expected
the entire labor situation, so far as it
affects the entire country, will be
discussed.

The general labor outlook was con-
siderably clarified by last night and
today's developments as there was a
conspicuous lack of strike talk today.
Generally, labor officials, seem in-
clined to wait for developments.

Reports from the Pacific coast to-
day indicated the strike there will
collapse. At the offices of the Rail-
road administration, it was declared
that there will be no further tempo-
rizing with the strikers and that if
the men did not return to work im-
mediately their places will be filled
and every protection given the strike
breakers.

Mr. Gompers will be accompanied
by members of the Executive council
of the Federation of Labor and by
committees representing the iron and
steel makers union.

The steel committee, headed by
John Fitzpatrick, today telegraphed
James Mulholland, secretary of the
allied steel workers council, charging
that the steel companies are trying to
force the strike issue with wholesale
discharges of men and calling upon
the men to remain at their work un-
til President Wilson has been given a
chance to pass upon the merits of
their controversy.

A score of strikes, tabulated here
today are:

New York actors and actresses on
strike to force recognition of union,
closing 26 theatres.

Piano workers threatening strike to
force recognition of union and obtain
an 8 hour day.

Twelve hundred workers on strike
at Hammond asking closed shop and
increased wages.

120,000 carpenters and allied
building trade workers on strike at
Chicago demanding wage increases.

Two hundred lunch room workers
out demanding increased pay.
200 optical workers on strike for
wage increases.

3,000 machinists on strike at Ac-
ron for higher pay. Strike of elec-
trical workers expected.

15,000 miners out at Springfield de-
manding wage increase.

5,000 machinists on strike in
Springfield for higher wages.

Chairman Gary, of the U. S. Steel
corporation, considering letter from
union leaders urging a meeting with
them and threatening a strike of
steel workers throughout country if
request is refused.

Holds Center of Stage

The labor situation held the cen-
ter of the nation's stage throughout
today. Samuel Gompers, veteran
head of the American Federation of
Labor, and his associates on the ex-
ecutive board of that organization
worked out in their carefully secl-
uded offices, a general plan of action,
designed to meet the crisis develop-
ing in various vocations. Railway Di-
rector Hines and his lieutenants cal-
culated the situation.

UNCLE SAM IS SALESMAN ON TREMENDOUS SCALE

Uncle Sam has turned salesman on a large scale and announcement is made in press dispatches from Washington of the transfer of all American Expeditionary force property on French soil to France, except a comparatively small amount held for transportation to the United States. The consideration was \$400,000,000.

While the sum paid by the French government for the equipment represents 30 per cent less than the American commission had fixed as its value, the war department saw no other better way to dispose of the property. It was imported into France without the payment of duty and war department experts declared France could not collect \$150,000,000 tax, if the equipment was sold to any other nation. The cost of guarding it would have been \$25,000,000 for six months, the time which would have been required to have salvaged it.

After all it probably was cheaper for America to sell than to keep the docks, telephone lines and other property included in the inventory and the war department is satisfied that the sale France gets much better telephone and docking facilities than she had before the war—and got them at a big discount. No doubt she is happy.

The huge transfer, however, should impress on Americans the impracticability of the movement in certain quarters of this nation to cancel the war debt of the Allied nations of this nation to cancel the war debt of the Allied nations to the United States. Uncle Sam has paid and paid well for his participation in the war and there is no sound reason why the credits extended Europe should not be repaid in gold.

THE NEW ROAD TO BIRMINGHAM

The Daily Times unhesitatingly endorses the substantial movement that is on foot to improve the Morgan county road via Arab to Birmingham. Today at Lacy's Spring in Morgan county a big free barbecue was held and the movement received a very substantial boost. Huntsville proper is giving some \$500 in cash to help build the road, which when complete would greatly shorten the distance between here and Birmingham and besides would greatly shorten the distance between here and Birmingham and besides would open an immediate new and rich trade territory for the Huntsville merchants. Good lands across the river that ought to be worth \$100 an acre are down to \$5 and \$25 because of this road impediment. It is certain the improvement will succeed. Morgan county and Marshall county asked Madison county to join in the proposition and she did so gladly. A good ferry is in operation across the Tennessee river and in time both a wagon and road bridge should and no doubt will take its place. We are all for good roads and the quicker they are built and maintained the better it will be for the country as a whole.—Huntsville Daily Times.

There is one good thing about it. The high cost of living kept the Congress from taking a vacation, too.

If you cannot smile have your mouth to imitate one.

Prediction about the present speed of events leads one past imagination.

Uncle Sam turning grocer and clothing merchant on such a large scale now, suggests that he must have done some big business in these lines during the war.

A certain cabinet member has said that his presidential boom "is in the hands of the people." Which means that he is receptive and hopeful.

Senator McCumber told Senator Fall that a certain statement of the latter was "unqualifiedly false." Draw your own conclusions, as to what he really meant to say.

What has become of the man who thought he was paying mighty high for them when he gave \$3.00 for a pair of shoes?

If the leather sellers become much steeper in their prices, we will have to work all night barefooted during the summer, in order to buy Winter shoes.

Whale meat is recommended by the government, which also sends out a recipe as to how to cook it. Now if the government will kindly send on the whale, we will have a whale of a time.

All the attacks on the high cost of living will come to nothing, until we go through the profiteers like the "Old Hickory" division went through the Hindenburg line.

If the former German Kaiser did not exist in name only, we might blame the high cost of everything on him.

It is rumored that the word "obey" is to be eliminated from marriage ceremonies. Very good. It has always been useless to pledge a woman to a thing which she has no earthly intention of doing.

What has become of the idea to have the present state legislature pass a bill allowing the county of Morgan to make an annual appropriation to the Benevolent Hospital?

Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity.

This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin

eruptions. This wonderful remedy is without an equal as a blood purifier, being probably the oldest blood medicine on the market. It has been sold by druggists for fifty years. Get a bottle today and begin treatment that will get results. You are invited to write to-day for complete and full advice as to the treatment of your own case. **Aerial Mail Plane
Called "Bootlegger"**

(International News Service.)

WASHINGTON, Aug. 29.—One hundred and thirty gallons of alcohol were brought into Washington today by an air mail plane of the Post office Department. The plane flew 3,000 feet over the heads of the excise officers and policemen on the lookout for bootleggers. The alcohol was not carried in the mail bags, which would be in violation of the law, but in the fuel tanks; nor was it peddled around in the haunts of the bootleggers after its arrival. The proper thirst for this character of alcohol has not yet been cultivated. It contains a fair percentage of benzol and enough ether to give it additional kick.

The plane which brings in this alcohol every other day is known among the air mail pilots as the "Bootlegger," and is the forerunner of a revolutionary change in the motor operation of the Air Mail Service. This product is the new alcohol fuel which takes the place of the high-grade acetylene gasoline. After a number of tests with new fuel under adverse weather conditions, the Post Office Department is changing over its acetylene engine attachments and will shortly be operating the entire New York-Washington route with the alcohol fuel.

Its great advantage lies in the cleanliness of the motor, reducing cost of upkeep, and in its burning cooler than gasoline, thereby overcoming objections to the high compression motor at low altitudes. The planes which ordinarily used 25 to 26 gallons of gasoline operate on the new fuel on about 20 gallons, which gives greater flying radius to the planes. It reduces chances of forced landings by keeping the spark plugs and the engine cylinders clean of carbon and oil accumulations. With this fuel it will be possible to operate the mail in a DeHavilland 4 regularly in a non-stop flight from New York to Cleveland, a distance of 430 miles, whenever fog or rain conditions in the mountains make it inadvisable to attempt to land at the intermediate field at Bellefonte, Pa.

Unsought Fame.

"This is the end of my social career!" moaned Algernon, sitting up in bed. "I drank too much last night at the ball and staggered into everybody!" "Scarcely, sir, scarcely," said his valet apologetically. "Everyone's talking of you as inventing a new dance!"

**Widow Preferred to
Meet Death at Home**

"For many years I suffered from stomach trouble. All the doctors I tried helped me but little. All said I would have to go to hospital and be operated on for gall stones or I would not live much longer. I told them I preferred to meet death at home. One day I picked up an advertisement of Mayr's Wonderful Remedy and taking a course of it more active year ago have not had a simple, in my stomach, have not removed and can eat anything from the intestine. The harmless preys the inflammation the catarrh practically all stomach, and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. ANNOUNCEMENT
(Paid Political Advertising.)
We are authorized to announce Hodges Crow as a candidate for Tax Collector of Morgan county, subject to the Democratic primary. Your vote and influence solicited.

UNCLE SAM IS SALESMAN ON TREMENDOUS SCALE

Uncle Sam has turned salesman on a large scale and announcement is made in press dispatches from Washington of the transfer of all American Expeditionary force property on French soil to France, except a comparatively small amount held for transportation to the United States. The consideration was \$400,000,000.

While the sum paid by the French government for the equipment represents 30 per cent less than the American commission had fixed as its value, the war department saw no other better way to dispose of the property. It was imported into France without the payment of duty and war department experts declared France could not collect \$150,000,000 tax, if the equipment was sold to any other nation. The cost of guarding it would have been \$25,000,000 for six months, the time which would have been required to have salvaged it.

After all it probably was cheaper for America to sell than to keep the docks, telephone lines and other property included in the inventory and the war department is satisfied as the sale France gets much better telephone and docking facilities than she had before the war—and got them at a big discount. No doubt she is happy.

The huge transfer, however, should impress on Americans the impracticability of the movement in certain quarters of this nation to cancel the war debt of the Allied nations of this nation to cancel the war debt of the Allied nations to the United States. Uncle Sam has paid and paid well for his participation in the war and there is no sound reason why the credits extended Europe should not be repaid in gold.

THE NEW ROAD TO BIRMINGHAM

The Daily Times unhesitatingly endorses the substantial movement that is on foot to improve the Morgan county road via Arab to Birmingham. Today at Lacy's Spring in Morgan county a big free barbecue was held and the movement received a very substantial boost. Huntsville proper is giving some \$500 in cash to help build the road, which when complete would greatly shorten the distance between here and Birmingham and besides would greatly shorten the distance between here and Birmingham and besides would open an immediate new and rich trade territory for the Huntsville merchants. Good lands across the river that ought to be worth \$100 an acre are down to \$5 and \$25 because of this road impediment. It is certain the improvement will succeed. Morgan county and Marshall county asked Madison county to join in the proposition and she did so gladly. A good ferry is in operation across the Tennessee river and in time both a wagon and road bridge should and no doubt will take its place. We are all for good roads and the quicker they are built and maintained the better it will be for the country as a whole.—Huntsville Daily Times.

There is one good thing about it. The high cost of living kept the Congress from taking a vacation, too.

If you cannot smile have your mouth to imitate one.

Prediction about the present speed of events leads one past imagination.

Uncle Sam turning grocer and clothing merchant on such a large scale now, suggests that he must have done some big business in these lines during the war.

A certain cabinet member has said that his presidential boom "is in the hands of the people." Which means that he is receptive and hopeful.

Senator McCumber told Senator Fall that a certain statement of the latter was "unqualifiedly false." Draw your own conclusions, as to what he really meant to say.

What has become of the man who thought he was paying mighty high for them when he gave \$3.00 for a pair of shoes?

If the leather sellers become much steeper in their prices, we will have to work all night barefooted during the summer in order to buy winter shoes.

Whale meat is recommended by the government, which also sends out a receipt as to how to cook it. Now if the government will kindly send on the whale, we will have a whale of a time.

All the attacks on the high cost of living will come to nothing, until we go through the profiteers like the "Old Hickory" division went through the Hindenburg line.

If the former German Kaiser did not exist in name only, we might blame the high cost of everything on him.

It is rumored that the word "obey" is to be eliminated from marriage ceremonies. Very good. It has always been useless to pledge a woman to a thing which she has no earthly intention of doing.

What has become of the idea to have the present state legislature pass a bill allowing the county of Morgan to make an annual appropriation to the Benevolent Hospital?

Itching, Scratching, Skin Diseases That Burn Like Flames of Fire

Here Is a Sensible Treatment That Gets Prompt Results.

Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity.

This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin

eruptions. This wonderful remedy is without an equal as a blood purifier, being probably the oldest blood medicine on the market. It has been sold by druggists for fifty years. Get a bottle today and begin treatment that will get results. You are invited to write to-day for complete and full advice as to the treatment of your own case. Doctors Find Meadors' Antiseptic Fine For Burns

As a safe, sure remedy for cuts, sores, sore eyes, tonsillitis, and sore gums, doctors have found Meadors' Antiseptic, the formula of an old English physician, most effective. It acts very quickly and soothingly. You should keep a bottle of it constantly in the house for use in case of burns, wounds, sores, sore throat, or bleeding gums, a most excellent mouth wash and gargle. It is put up in 50c and \$1.00 sizes. Get a bottle at any druggist. Keep it on hand. You would not be without it after trying it once.

FI DELIS CLASS PICNIC SUPPER

The Fi Delis class of the Central Baptist church enjoyed a picnic supper at Slip-Up last evening, each member invited a guest, so after the tempting supper, various amusements kept every one on the qui vive to match nit with the other party. The usual generosity of Mr. B. L. Malone was evidenced in sending the class and guests to Slip-Up. Mr. and Mrs. Seneca Burr chaperoned. Mr. Burr is the teacher of the class—it was a most delightful success.

Aerial Mail Plane Called "Bootlegger"

(International News Service.)

WASHINGTON, Aug. 29.—One hundred and thirty gallons of alcohol were brought into Washington today by an air mail plane of the Post office Department. The plane flew 3,000 feet over the heads of the ex-cise officers and policemen on the lookout for bootleggers. The alcohol was not carried in the mail bags, which would be in violation of the law, but in the fuel tanks; nor was it peddled around in the haunts of the bootleggers after its arrival. The proper thirst for this character of alcohol has not yet been cultivated. It contains a fair percentage of benzol and enough ether to give it additional kick.

The plane which brings in this alcohol every other day is known among the air mail pilots as the "Bootlegger," and is the forerunner of a revolutionary change in the motor operation of the Air Mail Service. This product is the new alcohol fuel which takes the place of the high-grade airplane gasoline. After a number of tests with new fuel under adverse weather conditions, the Post Office Department is changing over its airplane engine attachments and will shortly be operating the entire New York-Washington route with the alcohol fuel.

Its great advantage lies in the cleanliness of the motor, reducing cost of upkeep, and in its burning cooler than gasoline, thereby overcoming objections to the high compression motor at low altitudes. The planes which ordinarily used 25 to 26 gallons of gasoline operate on the new fuel on about 20 gallons, which gives greater flying radius to the planes. It reduces chances of forced landings by keeping the spark plugs and the engine cylinders clean of carbon and oil accumulations. With this fuel it will be possible to operate the mail in a DeHavilland-4 regularly in a non-stop flight from New York to Cleveland, a distance of 430 miles, whenever fog or rain conditions in the mountains make it inadvisable to attempt to land at the intermediate field at Bellefonte, Pa.

Unsung Fame.
"This is the end of my social career!" moaned Algernon, sitting up in bed. "I drank too much last night at the ball and staggered into everybody!" "Scarcely, sir, scarcely," said his valet apologetically. "Everyone's talking of you as inventing a new dance!"

Widow Preferred to Meet Death at Home

"For many years I suffered from stomach trouble. All the doctors I tried helped me but little. All said I would have to go to hospital and be operated on for gall stones or I would not live much longer. I told them I preferred to meet death at home. One day I picked up an advertisement of Mayr's Wonderful Remedy and since taking a course of it more than a year ago have not had a single pain in my stomach, have good appetite and can eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson, Albany and Owl Drug Co., Decatur and druggists everywhere.—Advertisement.

Albany Boosters Warmly Received

(Continued from Page 1.)

ment truck was still as complete, lost as the nickel which John I. Rockefeller dropped into the casino of the Pennsylvania oil well away back in the sixties, and over which his past the locality where the tragedy occurred. Patterson M. C. arose to the occasion, bought up the whole stock of soft drinks in the village and presented it to the people. Said on young lady of Mt. Hope: "Pshaw, I ain't honin for soft drinks, its pleases enough to meet the folks that are so nice to us when we go tradin' in Albany."

Off to waving handkerchiefs and shrill cries from the children of "Come Again," back to Landersville and doubtless because that servant of The Lord, Rev. W. P. Wilks, was thirsty from much excellent speech-making—there was the refreshment truck a last, and the good people were still waiting to greet their friends.

Here occurred the surprise of the day. Many good speeches had been made at the various points, but here Patterson M. C.—who has as good an eye for a potential speaker as a victim of prohibition has a nose for a blind pig—summoned John W. Napps of Caddo, from the throng and coerced him into making a speech, which he did. It was some speech. Suffice it to say that the people of that district then and there pledged themselves to grade their part of the road which will ere long be a pike from Albany to the end of Moulton Valley, and willed that they would name it Napp's Highway.

It was now 5 p. m. A telephone message from Wren, the last point to

have been visited, informed the Boosters that the folks had gone home to get supper ready, so the hot, dusty Boosters started for home, having enjoyed a pleasant day among pleasant people in most pleasant surroundings.

Many Addresses Made
The Booster speakers at the several stops were: Andrew Patterson, M. C. who can talk about Albany till the cows come home; Rev. W. P. Wilks, who has a new humorous story to illustrate any point; T. C. Almon, the Albany lawyer who was born in Lawrence county, and kindly told his old friends that if he couldn't get them out of trouble he could get them into it; I. Kuhn, R. H. Henley and C. F. Tidwell, all boosters for a progressive Tennessee Valley, and A. S. Carruthers, the Age-Herald writer who is here to boost the Tennessee valley, whose keynote was that the descendants of the people who fought five times their number for four years can overcome any difficulties.

Of all the pleasant features of the day's trip, the most pleasant was the spirit of the Lawrence county people who at each point visited greeted the Boosters on their departure with the unanimous cry: "Come Again."

And the most pleasant recollection that all the Boosters carried to their homes, was of the happy, healthy children along the country roads who had evidently heard of their coming. As the machines passed, they stood fearlessly at the edge of the road almost brushed by the mud guards, and waved their hands. There is no race suicide in the Tennessee valley. Many homes erupted six or more children, one welcomed with nine. These are the chief reasons why the people of the valley, farmers, business and professional men, are working to make it more easy of access and more prosperous; those little children who when they attain manhood and wom-

hood will carry on the traditions of the south with gratitude in their hearts to this adult generation which assured them present education and future prosperity.

Old Tradition Exploded.

Again that old stuff about "giants in those days" has been rudely punched out by the museum visitors inspecting suits of armor worn by doughty knights in the "fifteens." One of our regular doughboys of average proportions cannot get his arms into the leg pieces, and the average schoolboy of the present day would find the "suit" uncomfortably tight.—Florida Times-Union.

Calomel Today! Sick Tomorrow!

I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you better and quicker than nasty calomel and without making you sick you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; sides, it may salivate you, while you take Dodson's Liver Tone you will wake up feeling great, full ambition and ready for work. It is harmless, pleasant and safe to give to children; they like

YOUNG WOMAN TO RESUME HER TEACHING SOON

MISS FROGUE AGAIN CAPABLE OF PERFORMING DUTIES SINCE TAKING TRUTONA.

NASHVILLE, Tenn., August 28.—"I had to give up my work as a school teacher on account of poor health, but I've felt so remarkably well, since taking Trutona, that I intend to resume my duties in the near future," Miss Myrtle Frogue, 20 years old, a well-known Nashville young woman of 1515 East Douglas avenue, said recently.

"I had been suffering from stomach trouble and nervousness," she continued. "For the past two months I haven't been able to eat any supper because of severe heartburn I'd invariably suffer afterward. The little food I ate caused me to be constipated, which resulted in my experiencing severe headaches and frequent attacks of dizziness. I also often had pains in the back of my neck."

"I have been taking Trutona only several days, but already the medicine has helped me wonderfully. My nerves are stronger and more steady and the formerly severe pains in my head and neck are becoming more and more infrequent. And that means a lot to me, for I used to have the headache for a week at a time. My appetite is much better now, also. Why, I've been eating supper regularly for the past week and it hasn't hurt me a bit. In short, my stomach trouble is almost a thing of the past. I think Trutona is a wonderful medicine and I'm confident it will put others on the road to good health as it has me."

Trutona is now being introduced and explained in Decatur by Decatur Drug Co. and in Albany by Preuit-Dillehay Drug Co.—Advertisement.

Wirthmor Silk Blouses

—make their debut tomorrow, and fortunate will be those who come in time to buy.

In the Blouse making world as well as with hosts of women throughout America the word WIRTHMOR has come to have a wholly unique, definite and distinctive meaning. It is a symbol always of quality; an unfailing sign of merit; a certain indication of Style attractiveness and inbuilt goodness; a positive assurance of complete and lasting satisfaction. To that great Wirthmor following, as well as to the women everywhere who spend judiciously, who insist on the greatest return for the expenditure, the fact that Wirthmor Blouses are hereafter to be obtainable in beautiful Georgetown and Crepe de Chine and wash satins of exceptional quality will come as a bit of most welcome news.

In this new group of models (four of which are above illustrated) there's a pleasing diversity of Style. Some of the models are handsomely embroidered, others are Filet lace trimmed, while others depend on an attractive arrangement of tucks; pleats and buttons for their appeal.

Wirthmor Silk Blouses \$5

The Same Price the Nation Over

If bought and sold in the ordinary way these Blouses would have to sell for far more. Bought and sold, however, in the WIRTHMOR way, the way that makes for innumerable economies in both the manufacture and sale, this very modest price is possible. They are not five dollar Waists, but Waists which we, and we alone in this city because of the very fortunate arrangement with the Wirthmor manufacturers can sell at this price.

The Public Health Demands Pure Water

No. 1 of a series of ads by the Coca-Cola Bottling Works, Albany. Watch for them.

Water, to be absolutely pure and palatable, must not only be subjected to a high degree of temperature, but must also be especially treated to eliminate that "flat" taste so common to ordinary boiled water.

To accomplish both these objects the Coca-Cola Bottling Works has recently, at a cost of over \$15,000, installed a

"POLAR STILL"

The only one in the State of Alabama that is being used by a bottling works for the benefit of the public health, and made other extensive improvements, a detailed account of which will be contained in a series of ads appearing in this newspaper.

THE POLAR STILL in use at this plant is an exact duplicate of the one in use at Johns Hopkins Hospital at Baltimore, and other well known institutions. Its use guarantees ABSOLUTE PURITY IN WATER. By a special process "life" is also returned to the water after distillation.

A twenty-five horse-power boiler is required to operate this machine.

This pure distilled water now goes into every bottle of COCA-COLA and other flavors put up by us.

For your health's sake you should remember this fact and ask for soft drinks bottled at the Albany Coca-Cola plant.

Noted Scientist to Build Cement Walk to Aid in Detecting Earthquakes

(International News Service.)
SAN BERNARDINO, Cal., Aug. 29
—Orlis I. Kennedy, attorney, scient-
ist and earthquake prognosticator,
who predicted the tremor of San
Jacinto and Hemet April 21, 1918, al-
most to the minute, is going to build
a 1,000-foot cement sidewalk to assist
him in predicting earthquakes.

The sidewalk, he believes, will in-
form him in advance when Mother
Earth is ready to smooth out some of
the wrinkles Dame Nature made in
her face.

Kennedy is in no hurry to build
the walk, as he says there will be no
earthquake of consequence in 1919.
The survey for the detector cement
walk, which will be a foot thick, has
been made and the stakes set. It will
be constructed near the scientist's
study at the edge of the famous San
Andreas fault or earth wrinkle, near
Verdmont, northeast of San Ber-
nardino.

TO CLEAR HEAD AND CLEAN LIVER TAKE A CALOTAB

The Nauseless Calomel Tablet that
is Purified and Refined From the
Sickening Effects.

What will human ingenuity do
next? Smokeless powder, wireless
telegraphy, horseless carriages, color-
less iodine, tasteless quinine, now
comes nausealess calomel. The new
improvement called "Calotabs" is now
on sale at drugstores.

For biliousness, constipation and
indigestion the new calomel tablet is
a practically perfect remedy, as evi-
denced by the fact that the manufac-
turers have authorized all druggists
to refund the price if the customer is
not "perfectly delighted" with calo-
tabs. One tablet at bedtime with a
swallow of water—that's all. No
taste, no nausea, no griping, no salts.
By morning your liver is thoroughly
cleansed and you are feeling fine,
with a hearty appetite. Eat what you
please—no danger—go about your
business.

Calotabs are not sold in bulk. Get
an original package, sealed. Price,
thirty-five cents.—(adv.)

THE FOUR BIG DOMINANT REASONS

Why Olshine's Values Overshadow Any and All Others in North Ala.

With four big, beautiful, busy Olshine Stores, at 326 West Market Street, Louisville, Ky.; 703 Church Street, Nashville, Tenn.; 623 Market Street, Chattanooga, Tenn.; Corner Bank and Church Streets, Decatur, Ala., imagine what a tremendous amount of merchandise it must take to keep them adequately supplied with everything men, women and children wear. Think of the buying power vested in the men "who make the wheels turn."

It only requires a moment's reflection to grasp the forcible fact that Olshine's is the South's dominating outfitting organization—our immense volume gives us the wonderful buying power we wield and enables us to demand (AND GET) many concessions far beyond the reach of the average store with limited output.

So you see why this great merchandising organization, with its immense buying power that saves money in many ways and transfers the saving to you in the shape of lower prices for better quality is the logical place for you to look to for the most for your money. We expect YOU to expect MORE from Olshine's than from the usual sort of a store—we offer to sell you everything you wear at the lowest possible prices for which "reliability" can be sold, and offer to buy it back again if you ever have the slightest cause for a "kick," and do it without quibble or question.

And yet, with all this great quantity buying, QUALITY, that most satisfying of all features, is never lost sight of. There is no room in any of the Olshine stores for inferiority in any form. Sham can never adopt a camouflage that will enable it to slip into these great stocks.

A comprehensive showing of all that is smart and new in Tailored Suits, Coats, Dresses and Blouses of the better kind at prices less than inferior ones. We ask you to come and look, compare quality, style and price.

SMART DRESSES

Unmistakably Fashion has revealed another side to her very fickle nature, for the first arrivals in dresses are long, lithe or ingeniously draped, and their simplicity add charm to the richness of material. Many display rich ornamentation of gold, silver and silk embroidery, while others are artistically beaded with laces, beading or fringe.

NEW TAILORED SUITS

Radiant with the spirit of autumn and rich in tone as the colorful leaves it brings forth are the new suits for fall. Tailleurs in the trimmest of Parisian styles are in evidence side by side with fashions that are lavishly adorned with fur and embroidery. These are suits that will win the instant admiration of the fashion loving patron and at prices that will prove a pleasant surprise.

An Invitation

We have recently completed many improvements and additions to our big Decatur Store. We have spent several thousands of dollars that this establishment might prove more pleasing to your eye, be more convenient for you in shopping. It is now without doubt the most beautiful store of its kind in North Alabama.

We most cordially invite you to call and inspect same whether you wish to buy or not. We want you to feel that it is your store. For it is due to your kind patronage that we are able to make this expenditure for improvements.

Daily shipments by express are filling our shelves with the most exclusive and lovely lines we have ever carried, and all moderately priced, too.

"COME ALONG MARY" OPENS THEATRICAL SEASON HERE

One of the most attractive musical comedies of the season comes to the Masonic theatre Sept. 8 when Harvey D. Orr presents the new Wealyn-Paulton musical success, "Come Along Mary." Contrary to most musical shows, this one has a plot. Not one that will make your brain tired to follow it, but one that will hold your interest throughout the play, and also serve as an excellent vehicle to build up an evening's entertainment of hilarious fun and music.

The scenic equipment of "Come Along Mary," is one of great beauty and leaves nothing to the imagination. Starting with the first scene at the

Silver Rock Golf Club, Long Island, you are taken to the wonderful Hawaiian Island, the land of Sunshine, Flowers and Romance. The beautiful gardens of the Oriental Hotel, with the silvery lake in the distance, the Hawaiian moon shining down upon it, the road to the Beach, and the

CAPUDINE

famous Waukiki Bathing beach, are all scenes noted for correctness and beauty.

Haunting tunes ripple through the play, and run of the irresistible kind make up the two and one half hours of real enjoyment and pleasure.

A company of some 40 people, including the famous "Broadway Chorus" will inhabit the above scenes, and present that, which is heralded as one of the best of the seasons musical attractions.

The whims of will-makers are many and curious, but for the pure sarcasm commend us to the British sailor who requested his executors to pay his wife one shilling, wherewith to buy hazelnuts, as she had always preferred cracking nuts to mending his stockings.

Not Poor if You Wear Silk Hose, Court Says

(International News Service.) ST. LOUIS, Mo., Aug. 29.—A woman who wears silk hose should not expect to avoid court costs by suing as a poor person. If she can afford silk stockings she can pay court costs. This is the opinion of Circuit Judge Landwehr, who says he is making an effort to see that those who can afford to pay costs in his court do so.

The silk hose decision was made recently in the \$7,500 damage suit of Miss Alice Montagnon against Frank Klerch. The woman attempted to evade paying court costs, pleading that she was poor, although she wore silk stockings in court.
